

Homemade Bubble Recipe

What You Need:

- Liquid dish soap (Joy or Dawn brands work best)
- Water
- Clean container with lid
- Glycerin or light corn syrup

What You Do:

1. Measure 6 cups of water into one container, then pour 1 cup of dish soap into the water and slowly stir. Try not to let bubbles form while you stir.
2. Measure 1 tablespoon of glycerin or 1/4 cup of corn syrup and add it to the container. Stir the ingredients.
3. You can use the solution right away, but you will make better bubbles if your solution sits overnight. (Note: If you used "Ultra" dish soap, then double the amount of glycerin or corn syrup.)
4. Dip a bubble wand* or straw into the mixture, slowly pull it out, wait a few seconds, and then blow. *How big of a bubble can you make? How many bubbles can you make in one breath?*

*You can make your own bubble wand with a pipe cleaner or rubber band several straws together to make a bubble shooter.

Float down low.
Bubble, bubble,
Land on my toe.
Bubble, bubble,
Stop, stop, stop.
Bubble, bubble,
Now go POP!

Oh, come back, my bubble to me!
Come back, Come back,
Oh, come back my bubble, to me, to me!
Come back, Come back,
Oh, come back my bubble to me!
