Review by Sienna

Chamber pop/folk/alternative

**What originally made you interested in reading/watching/playing this media? How did you hear about it or come across it?**

I came across this artist back in 2018 and I've fallen in love with her music ever since, I now listen to majority of her discography.

**Is it part of a series? If so, what series is it?**

This is Mitski's first ever album, since 2012 when it was released there has been 6 more albums and 5 more singles.

**What is this media about? Make sure to give enough interesting details without spoiling too much!**

This album mostly has messages of growing up as a Japanese-American woman and how she has changed and emerged from her child self into a new woman.

**Who are the main characters? What makes them interesting or unique?**

n/a

**Does this media remind you of anything else you've read/watched/played?**

While I have never truly heard something as captivating as this album, Jeff Buckley is another artist that I would classify as the same category as Mitski and this album.

**What type of person might enjoy this media? For example, this book is for someone who likes Percy Jackson, someone who enjoys getting scared, someone who likes a challenge, etc.**

Anyone who enjoys sadder and intense music, as well as artists like Fiona Apple, Lana Del Rey, and Jeff Buckley.

**Did you like this media? Would you recommend it to others? Why or why not?**

Yes and I would always recommend this album, especially since it was written when Mitski was just 18 back in 2012.

**Do you like the cover? Does it convey what the media is about?**

It is an absolute beautiful album cover and I think perfectly conveys the act of growing up and changing , some of the messages from her songs.

**Do you have any last thoughts about this media that you would like to include in your review?**
