Romance/Sci-fi

**What originally made you interested in reading/watching/playing this media? How did you hear about it or come across it?**

I had read the first book of the series, loved the author, and decided to continue reading the second book!

**Is it part of a series? If so, what series is it?**

They Both Die at the End Series

**What is this media about? Make sure to give enough interesting details without spoiling too much!**

This book follows Orion and Valentino on the first day that Death-Cast was aired! Death-Cast is a sign up service in the book that would give you a call to let you know today is your last day between 12-2 A.M. Valentino used to live in Arizona, but moved to New York in sight for a modeling career in the big city. Meanwhile, Orion has always lived in New York with his best friend, Dalma. Orion's parents are unfortunately dead, so he has lived with Dalma all his life. On the night Death-Cast aired, they ran into each other and one of them got the call, which changed both of their lives forever.

## **Who are the main characters? What makes them interesting or unique?**

The main characters are Orion Pagan and Valentino Prince. What makes Orion interesting is that he has a heart condition and that point is focal throughout the main events happening in the book. Valentino is interesting through the fact he is a twin with his sister Scarlet and that he uprooted his life to come to New York.

## **Does this media remind you of anything else you've read/watched/played?**

Yes! This reminds of the first book in these series- though this is quite expected.

## **What type of person might enjoy this media? For example, this book is for someone who likes Percy Jackson, someone who enjoys getting scared, someone who likes a challenge, etc.**

I feel like someone who enjoys adventure and sweet romances would love this book. I absolutely adored all the sweet moments in it and the section that had all their "Firsts" kept me engaged despite it being over half the book.

## **Did you like this media? Would you recommend it to others? Why or why not?**

I loved this book! I would 100% recommend it to other people. Despite the long length, I never got bored with this book. I was always engaged and absolutely loved the storyline and different perspectives. I loved all the parallels that happened when the POV'S changed and loved how it was written.

## **Do you like the cover? Does it convey what the media is about?**

Yes, I do like the cover. The cover, to me, conveyed two boys loving each other and spending their last moments together while death loomed over them, which is related to the story.

## **Do you have any last thoughts about this media that you would like to include in your review?**

I have not read the third book yet, as I started exploring more genres, but I am super excited to get back into it in a few months or so. :D
