Coming of age

What originally made you interested in reading/watching/playing this media? How did you hear about it or come across it?

I stumbled upon it in a library, the back summary caught my eye.

Is it part of a series? If so, what series is it?

No it is not part of a series.

What is this media about? Make sure to give enough interesting details without spoiling too much!

Kids facing hardship, all in different forms in a group home, there is romance, found family and more all in one book. They face hard times which only makes them grow closer. Throughout the book they grow and change but also face their difficulties, it is soul destroying and sad but it brings you on a roller coaster of emotion.

Who are the main characters? What makes them interesting or unique?

Chloe, Genesis, Adam, and Lucas. Adam is interesting because the way he processes what happened to him is so realistic and strong, he is like a big protector.

Does this media remind you of anything else you've read/watched/played?

This book ironically reminds me of the Perks of being a wallflower or Little Women, just because the characters feel so real and it's that perfect coming-of-age story.

What type of person might enjoy this media? For example, this book is for someone who likes Percy Jackson, someone who enjoys getting scared, someone who likes a challenge, etc.

Someone who might like this book is someone who likes the Tomman series especially Binding 13.

Did you like this media? Would you recommend it to others? Why or why not?

I like this media and would recommend it because when you read a book most read to escape, this book does that but keeps it realistic it makes you feel every emotion. Anger, sadness, and relief.

Do you like the cover? Does it convey what the media is about?

The cover is a pink wildflower which represents it perfectly. I can't say too much but once you read it you will know why.

Do you have any last thoughts about this media that you would like to include in your review?

Each character has their own brutally real personality, none of them are perfect that's what makes it so good. I feel like some adults forget what it's like to be a teenager or go through hard things but this book really helps process things healthily and go through those emotions, feeling sad or crying isn't bad sometimes we need to. This is the first book that made me sob.
